About me

Hi, I'm jo

I'm a graphic and web designer based in the beautiful village of Kottayam, Kerala. I guess for us to really connect, I've got to tell you a little bit about myself.

I've always been a story-teller first, long before I stumbled upon graphic design. It all started with drawings when I was younger, until the day my father gave me a computer and helped me discover another medium to express myself.

Designing is one of the most important parts of my work. I feel strongly about making new designs that speak to the passing viewers, making them linger for a little while.

There's no surprise that designs are the love of my life, but traveling is also the blood in my veins. I'm endlessly inspired by nature and adventures. I love waking up to new horizons, making friends with people, and exploring the world.

I love working with Creative peoples, brands, bloggers, and artists, so if you think that my designs are a good fit for you, don't hesitate to drop me an email! I can't wait for us to make art together and have fun along the way.

Jomon V J
